## Pros and Cons of Using Skills

Due Date: __________  Name: ___________________________  Week Starting: ______

Use this worksheet to figure out the advantages and disadvantages to you of using skills (i.e., acting skillfully) to reach your goals. The idea here is to figure out what is the most effective way for you to get what you want in life. Remember, this is about your goals, not someone else’s goals.

Make a list of the Pros and Cons of practicing your skills in this situation.

Make another list of the Pros and Cons for not practicing your skills or of not practicing them completely.

Check the facts to be sure that you are correct in your assessment of advantages and disadvantages.

Write on the back if you need more space.

Pros and Cons of Practicing Mindfulness

Due Date: __________ Name: ________________________ Week Starting: __________

Make a list of the pros and cons of practicing mindfulness skills.
Make another list of the pros and cons of not practicing mindfulness skills.
Check the facts to be sure that you are correct in your assessment of advantages and disadvantages.

Rate Willingness to Practice (0 = None; 100 = Very High) Before: _______ After: _______

Fill this worksheet out when you are:
- Trying to decide whether to work on becoming more mindful of the moments in your life.
- Feeling willful; saying no to letting go of emotion mind or extreme reasonable mind.
- Resisting observing the present moment, rather than escaping it or trying to control it.
- Resisting giving up your interpretations of others or yourself, rather than just describing.
- Resisting throwing yourself into the flow of the moment; wanting to stand on the outside.
- Feeling threatened whenever you think of letting go of judgments.
- Not in the mood for being effective instead of proving you are right.

When you are filling out this worksheet, think about these questions:
- Is a mindless life in your best interest (i.e., effective), or not in your best interest (i.e., ineffective)?
- Will refusing to go into Wise Mind solve a problem, or make a new problem for you?
- Is observing the moment without reacting to it immediately likely to increase your freedom, or decrease it?
- Is being attached to your thoughts instead of the facts you can describe useful, or not?
- Is staying judgmental helping you change the things you want to change, or getting in the way?
- Is it more important to be effective, or to be right?

(Mindfulness Handout 10)

Analyzing Yourself on the Middle Path

Due Date: __________ Name: ___________________________ Week Starting: __________

1. Figure out where you are off the middle path, toward one extreme or the other. For each of the following Wise Mind dilemmas, put an X on the line that represents where you think you are most of the time. If you are fairly balanced, put the X in the middle. If you are out of balance, put the X near the end that you are too extreme on.

   Reasonable mind           Emotion mind
   Doing mind                Nothing-to-do mind
   Intense desire for change of the moment Radical acceptance of what is
   Self-denial               Self-indulgence

2. Choose one dilemma. Describe very specifically what you are doing that is too much, and then describe what you do too little of.

   Too much

   Too little

3. Check the facts. Check for interpretations and opinions. Make sure that your list of activities you do too much of or too little of is in fact accurate. Check your own values in Wise Mind: Be sure to work on your middle path, not someone else’s. Also check for judgments. Avoid “good,” “bad,” and judgmental language. Rewrite any items above if needed so that they are factual and nonjudgmental.

4. Decide on one (or at most two) very specific things to do in the next week to get closer to balance.

EMOTION REGULATION WORKSHEET 2A
(Emotion Regulation Handout 3)

Example: Figuring Out What My Emotions Are Doing for Me

Due Date: ___________ Name: ___________________________________________ Week Starting: ___________

Select a current or recent emotional reaction and fill out as much of this sheet as you can. If the prompting event for the emotion you are working on is another emotion that occurred first (for example, feeling afraid prompted getting angry at yourself), then fill out a second worksheet for that first emotion. Use the back of the sheet if necessary. Use describe skills for each question.

EMOTION NAME: ___________________________ INTENSITY (0–100): ________________

Prompting Event
What happened to prompt this emotion?
I left my roommate's pot on the burner and forgot about it. I destroyed it. I then threw the pot away without telling my roommate.

Motivation to Action
What action was my emotion motivating and preparing me to do? (Was there a problem my emotion was getting me to solve, overcome, or avoid?) What function or goal did my emotion serve?
My emotion was motivating me to shrink away from my friend, to hide myself. It's possible that the function was to get me to change that behavior. The emotion was also functioning to get me to try to hide that I destroyed the pot.
To influence my friend to stop being mad at me.

Communication to Others
What was my facial expression? Posture? Gestures? Words? Actions?
My eyes were looking down. My lips were turned down. I was slouched slightly and turned slightly away from my friend. I did not say anything. I put my hands on my forehead.

What message did my emotion send to others (even if I didn’t intend to send the message)?
I think my friend realized that I felt bad.

How did my emotion influence others (even if I didn’t intend to influence them)? What did others do or say as a result of my emotional expression or actions?
My friend tried to get me to talk. I think it influenced her to stop yelling at me and be more kind.

Communication to Myself
What did my emotion say to me?
It was wrong to do what I did. I feel badly about it because I disappointed my friend. I have really messed this up and now she will never trust or like me.

What facts could I check out to be sure the message my emotions were sending to me was correct?
I could ask myself if what I did would get me kicked out of my house/friendship. I could try to figure out if what I did crossed my own wise/clear mind, moral code, values, I could ask her: Have I destroyed the relationship? Is she going to kick me out? Stop spending time with me? I could also ask what I can do that would help her to trust me again.

What facts did I check out?
I felt bad about burning the pot—but it wasn’t a moral code or values issue yet until I tried to hide that I had done it. That behavior did go against my Wise Mind. I asked my roommate if she hated me now and she said no. I asked if there was anything I could do to fix the situation, and she asked me to buy a new pot, and I did.

Worksheets for Changing Emotional Responses
Check the Facts

Due Date: __________ Name: ___________________________ Week Starting: __________

It is hard to problem-solve an emotional situation if you don’t have your facts straight. You must know what the problem is before you can solve it. This worksheet helps you figure out whether it is the event that is causing your emotion, your interpretation of the event, or both. Use your mindfulness skills of observing and describing. Observe the facts, and then describe the facts you have observed.

Step 1

Ask: What emotion do I want to change?

EMOTION NAME: ___________________________ INTENSITY (0–100) Before: ___ After: ___

Step 2

Ask: What is the PROMPTING EVENT for my emotional reaction?

DESCRIBE THE PROMPTING EVENT: What happened that led you to have this emotion? Who did what to whom? What led up to what? What is it about this event that is a problem for you? Be very specific in your answers.

CHECK THE FACTS!

Look for extremes and judgments in the way you are describing the prompting event.

REWRITE the facts, if necessary, to be more accurate.

Step 3

Ask: What are my INTERPRETATIONS (thoughts, beliefs, etc.) about the facts?

What am I assuming? Am I adding my own interpretations to the description of the prompting event?

CHECK THE FACTS!

List as many other possible interpretations of the facts as you can.

REWRITE the facts, if necessary. Try to check the accuracy of your interpretations. If you can’t check the facts, write out a likely or a useful (i.e., effective) interpretation.

(continued on next page)
EMOTION REGULATION WORKSHEET 5  (p. 2 of 2)

Step 4 [Ask: Am I assuming a THREAT? What is the THREAT? What about this event or situation is threatening to me? What worrisome consequences or outcomes am I expecting?

CHECK THE FACTS!
List as many other possible outcomes as you can, given the facts.

REWRITE the facts if needed. Try to check the accuracy of your expectations. If you can’t check out probable outcomes, write out a likely noncatastrophic outcome to expect.

Facts

Step 5 [Ask: What’s the CATASTROPHE, even if the outcome I am worrying about does occur? Describe in detail the worst outcome I can reasonably expect.

DESCRIBE WAYS TO COPE if the worst does happen.

Step 6 [ASK: Does my emotion (or its intensity or duration) FIT THE FACTS?
(0 = not at all to 5 = I am certain): ____
If you are unsure whether your emotion or your emotional intensity fits the facts (for example, you give a score of 2, 3, or 4), keep checking the facts. Be as creative as you can be; ask others for their opinions; or do an experiment to see if your predictions or interpretations are correct.

Describe what you did to check the facts:
Figuring Out How to Change Unwanted Emotions

Due Date: __________ Name: __________________________ Week Starting: __________

Once you have checked the facts, use this worksheet to help you figure out what to do next. Before you can figure out what to change, you have to decide whether acting on your emotion is effective in the situation you are in (and whether the emotion is one you actually want to change). (If you are not sure whether you want to change it or not, go back to Emotion Regulation Worksheet 1 and do pros and cons.) In the flow chart below, circle Yes or No at each level, and then select the skill that fits your situation best.

Describe what you did to manage the emotion:

Opposite Action to Change Emotions

Due Date: _______ Name: _____________________________ Week Starting: _______

Select a current or recent emotional reaction that you find painful or want to change. Figure out if the emotion fits the facts. If it does not, then notice your action urges; figure out what would be opposite actions; and then do the opposite actions. Remember to practice opposite action all the way. Describe what happened.

EMOTION NAME: ___________________________ INTENSITY (0–100) Before: ____ After: ____

PROMPTING EVENT for my emotion (who, what, when, where): What prompted the emotion.

ACTION URGES: What do I feel like doing or saying?

OPPOSITE ACTION: What are the actions opposite to my urges? What am I not doing because of my emotions? Describe both what and how to act opposite all the way in the situation.

WHAT I did: Describe in detail.

HOW I did it: Describe body language, facial expression, posture, gestures, and thoughts.

What AFTEREFFECT did the opposite action have on me (my state of mind, other emotions, behavior, thoughts, memory, body, etc.)?

Accumulating pleasant events can take planning. For each day of the week, write down at least one pleasant activity or event that is possible for you. In the next column, write down for each day the pleasant event or activity that you actually engaged in. Fill out an Observing and Describing Emotions worksheet (Emotion Regulation Worksheet 4 or 4a) if necessary, plus this diary sheet.

Getting from Values to Specific Action Steps

Due Date: _________ Name: ________________________________________ Week Starting: ________

STEP 1. AVOID AVOIDING. Rate degree you have avoided working on building a life worth living:
In the past (___) Now (___) (0 = no avoidance, 100 = avoided completely even thinking about it)
Check reasons for avoiding: □ Hopelessness □ Willfulness □ Too hard □ Other: __________

Use your cope-ahead skills, and write out a plan for getting yourself to avoid avoiding.

STEP 2. IDENTIFY VALUES THAT ARE IMPORTANT TO YOU. What is most important to you?
Review Emotion Regulation Handout 18 for ideas. Make a list of several of your most important values.
MY IMPORTANT VALUES: ________________________________________________

STEP 3. IDENTIFY ONE IMPORTANT LIFE VALUE OR PRIORITY TO WORK ON NOW.

Long-term goals depend on Wise Mind values and priorities. What values in your life need more
work now?

Make a list of two of the most important values in your life that are important things for you to
work on right now.

<table>
<thead>
<tr>
<th>VALUE: ________________________________</th>
<th>Importance</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>VALUE: ________________________________</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Rate the importance of each value for a “life worth living” to you (1 = a little important, 5 =
extremely important). Then rate how important it is to work on this value NOW (1 = low priority,
5 = very high priority).

REFINE YOUR CHOICES. Review your list and ratings above and the value you have chosen
to work on now. CHECK THE FACTS. Make sure that what you think are values and priorities
are in fact YOUR values and priorities—not the values others have, the values others think
you should have, or old internal “tapes” of values you learned but no longer really believe in.
Rewrite your list if you need to.

CHOOSE A VALUE TO WORK ON NOW. Pick the value that is either the most important to
you or is your highest priority to work on right now. (If you have more than one value that is a
high priority to work on right now, fill out another worksheet for that value.)

VALUE TO WORK ON NOW: ________________________________

(continued on next page)
STEP 4. IDENTIFY A FEW GOALS RELATED TO THIS VALUE.

List two or three different goals related to this value. Be specific. What can you do to make this value a part of your life? (If you have trouble thinking of goals, brainstorm as many goals as you can think of that might be related, and then choose those most related to your values.)

GOAL: __________________________________________
GOAL: __________________________________________
GOAL: __________________________________________

STEP 5. CHOOSE ONE GOAL TO WORK ON NOW.

Select one goal that is reasonable to work on now. If one goal has to be accomplished before other goals can be worked on, choose that one as your working-on goal. Be specific. If you want to work on more than one goal at a time, fill out two worksheets.

Goal to work on: __________________________________________

STEP 6. IDENTIFY SMALL ACTION STEPS TOWARD YOUR GOAL.

Break down the goal into lots of small steps that you can do. Each small step is a subgoal on the way to your overall goal. List action steps that will get you closer to your goal. If you can’t think of any steps, try brainstorming ideas. Write down whatever comes to your mind.

If you start to feel overwhelmed because a step looks too big, erase it and break it down into smaller steps you think you can actually do. Rewrite your list if you need to so that the steps you think you can do are included. Put in the order that you think you should do them. If you start to feel overwhelmed because there are too many steps, stop writing new steps and focus on just one step.

Action Step 1: __________________________________________
Action Step 2: __________________________________________
Action Step 3: __________________________________________
Action Step 4: __________________________________________

STEP 7. TAKE ONE ACTION STEP NOW. Describe what you did: __________________________________________

____________________________________________________

Describe what happened next: __________________________________________

____________________________________________________

(continued on next page)
REMEMBER: ATTEND TO RELATIONSHIPS

Attending to relationships (Group A on Emotion Regulation Handout 18) and being part of a group (Group B) are important to just about everyone. If you did not choose a value from one of these groups, review them to see if one of these first 10 values is an important one for you to work on. If you choose one, write it down and then, after working on it, fill out the rest of the worksheet.

Describe the relationship or relationship problem you want to work on: __________________________

What goal can you work on now? ______________________________________________________

__________________________________________________________________________________

What small action steps will help you reach your goal?

- Action Step 1: _________________________________________________________________

- Action Step 3: _________________________________________________________________

**Getting from Values to Specific Action Steps**

Due Date: ______ Name: ________________________________________________________________________ Week Starting: ______

Once you have figured out your values, the next step is to decide on specific things you can do or achieve (goals) that will make your life more in line with your values. Once you have goals, you can figure out what action steps are necessary to achieve the goal.

**Example:** **VALUE:** Be part of a group.

**Possible GOALS:**
- Reconnect with old friends.
- Get a more social job.
- Join a club.

Pick one GOAL to work on right now.
- Join a club.

Figure out a few **ACTION STEPS** that will move me toward my goal.
- Look for clubs on craigslist.
- Go to the bookstore by my house and ask about book groups.
- Join an interactive online game or chat room.

1. Pick one of your **VALUES**:

2. Identify three **GOALS**:

3. Circle one **GOAL** to work on right now.

4. Identify **ACTION STEPS** you can take right now to move closer to this **GOAL**.

5. Take one **ACTION STEP** now. Describe what you did:

### Pros and Cons of Acting on Crisis Urges

Due Date: __________  Name: ___________________________  Week Starting: __________

1. Describe the *problem behavior* you are trying to stop: ________________________

**Paired Muscle Relaxation**

Practice **Paired Muscle Relaxation** (tensing your body muscles and then letting go of tension completely as you breathe out). Practice as many times a day as you can at first until you notice that when you exhale, your body automatically relaxes on its own. At this point, you have paired breathing out with relaxation. Once that happens, continue practicing but not as often.

Practice paired muscle relaxation as many times a day as you can, and describe your experience below. Check the type of practice you did: individual muscles, muscle groups, or all of your muscles at once.

**Effective Rethinking and Paired Relaxation**

**Due Date:** _________  **Name:** ___________________________________________  **Week Starting:** _________

**Step 1. Describe** one typical prompting event for distress in your life: What led up to what? What is it about this event that is a problem for you? Be very specific in your answers. Use describing skills. Check the facts.

**Step 2. Ask:** “What must I be telling myself (or what are my interpretations and thoughts) about this event that contributes to my stress?” **Write them down.**

**Step 3. Rethink** the thoughts that lead to distress. Rethinking involves reevaluating the situation and its meaning in ways that counteract stress-producing thoughts and thereby reduce stress responses. **Write down** as many effective thoughts as you can to replace the stressful thoughts.

**Step 4. Did you practice in your imagination** effective rethinking of a stressful situation this week? **Yes ____ No ____**
   - If you engaged in rethinking, did it reduce fear of the situation happening again? (0–5, 0 = not at all; 5 = very much): ____
   - What effective thoughts did you use to replace stress-causing thoughts?

Rate average level of relaxation (0–100): **Before ____ After ____**

**Step 5. Did you practice rethinking plus paired relaxation?** **Yes ____ No ____**
   - If you engaged in rethinking plus paired relaxation, did it help you reduce your stress? (0–5, 0 = not at all; 5 = very much): ____
   - What effective thoughts did you use to replace stress-causing thoughts?

IMPROVE the Moment

Due Date: __________ Name: ___________________________________ Week Starting: __________

Describe two crisis situations that happened to you. Then describe your use of the IMPROVE skills.

CRISIS EVENT 1: Rate level of distress (0–100) Before: ______ After: ______

Prompting event for my distress (who, what, when, where): What triggered the state of crisis?

☐ Imagery ☐ Meaning ☐ Prayer ☐ Relaxation ☐ One thing ☐ Vacation ☐ Encouragement

At left, check the skills you used, and describe here:

Describe the outcome of using skills:

Circle a number to indicate how effective the skills were in helping you tolerate the distress and cope with the situation (keeping you from doing something to make the situation worse). Use the following scale:

I still couldn’t stand the situation, even for one more minute. 1 2 3 4 5

I was able to cope somewhat, at least for a little while. 1 2 3 4 5

I could use skills, tolerated distress, and resisted problem urges.

Radical Acceptance

Due Date: __________ Name: ___________________________ Week Starting: __________

FIGURE OUT WHAT YOU NEED TO RADICALLY ACCEPT

1. Make a list of two very important things in your life right now that you need to radically accept. Then give each one a number indicating how much you accept this part of yourself or your life: from 0 (no acceptance, I am in complete denial and/or rebellion) to 5 (complete acceptance, I am at peace with this). Note: if you have already completed this section, you don’t need to do it again unless things have changed.

What I need to accept (Acceptance, 0–5)
1. __________________________________________________________ (____)
2. __________________________________________________________ (____)

2. Make a list of two less important things in your life you are having trouble accepting this week. Then rate your acceptance just as you did above.

What I need to accept (Acceptance, 0–5)
1. __________________________________________________________ (____)
2. __________________________________________________________ (____)

REFINE YOUR LIST

3. Review your two lists above. Check the facts. Check for interpretations and opinions. Make sure that what you are trying to accept is in fact the case. Check for judgments. Avoid “good,” “bad,” and judgmental language. Rewrite any items above if needed so that they are factual and nonjudgmental.

PRACTICE RADICAL ACCEPTANCE

4. Choose one item from the very important list and one item from the less important list to practice on.
1. __________________________________________________________
2. __________________________________________________________

5. Focus your mind on each of these facts or events separately, allowing your Wise Mind to radically accept that these are facts of your life. Check off any of the following exercises that you did.
- Observed that I was questioning or fighting reality.
- Reminded myself that reality is what it is.
- Considered the causes of the reality, and nonjudgmentally accepted that causes exist.
- Practiced accepting all the way with my whole being (mind, body, spirit).
- Practiced opposite action.
- Coped ahead with events that seemed unacceptable.
- Attended to my body sensations as I thought about what I need to accept.
- Allowed myself to experience disappointment, sadness, or grief.
- Acknowledged that life can be worth living even when there is pain.
- Did pros and cons of accepting versus denial and rejection.
- Other: ______________________________________________________

6. Rate your degree of acceptance after practicing radical acceptance (0–5): __________________________

DISTRESS TOLERANCE WORKSHEET 12

(Distress Tolerance Handouts 15, 15a)

Mindfulness of Current Thoughts

Due Date: __________  Name: __________________________________ Week Starting: __________

Describe your efforts to observe your thoughts in the past week. Practice observing thoughts each day at least once. Don’t focus just on thoughts that are painful, anxiety-provoking, or full of anger; also observe and be mindful of pleasant or neutral thoughts. For each thought, first practice saying, “The thought [describe thought] went through my mind.” Then practice one or more strategies to observe and let go of thoughts.

Check off any of the following exercises that you did.

1. Used words and voice tone to say a thought over and over; as fast as I could; very, very slowly; in a voice different from mine; as a dialogue on a TV comedy show; or as singing.
2. Relaxed my face and body imagining accepting my thoughts as sensations of my brain.
3. Imagined what I would do if I stopped believing everything I think.
4. Rehearsed in my mind what I would do if I did not view my thoughts as facts.
5. Practiced loving my thoughts as they went through my mind.
6. Refocused my mind on sensations I was avoiding by worrying or catastrophizing.
7. Allowed my thoughts to come and go as I focused on observing my breath coming in and out.
8. Labeled the thought as a thought, saying, “The thought [describe thought] arose in my mind.”
10. Stepped back from my mind, as if I was on top of a mountain.
11. Shuttled back and forth between scanning for physical sensations and scanning for thoughts.
12. Imagined that in my mind thoughts were coming down a conveyor belt; were boats on a river; were train cars on a railroad track; were written on leaves flowing down a river; had wings and could fly away; were clouds floating in the sky; or were going in and out of the doors of my mind. (Underline the image you used.)

DISTRESS TOLERANCE WORKSHEET 13
(Distress Tolerance Handouts 16–21)

Skills When the Crisis Is Addiction

Due Date: _________ Name: ________________________________________ Week Starting: _________

Check off two skills for backing down from addiction to practice this week during a stressful situation:

☐ Plan for abstinence ☐ Sample abstinence for ___ days
☐ Plan for harm reduction ☐ Burn bridges
☐ Practice clear mind ☐ Build new bridges
☐ Search for abstinence reinforcers ☐ Practice alternate rebellion
☐ Increase non-addicting pleasant events ☐ Practice adaptive denial

Skill 1. Describe the situation and how you practiced the skill:

________________________________________________________________________________________

How effective was the skill in helping you cope with the situation (keeping you from doing something to make the situation worse)? Circle a number below.

I still couldn’t stand the situation, even for one more minute.

1

I was able to cope somewhat, at least for a little while. It helped somewhat.

2 3 4 5

I could use skills, tolerated distress, and resisted problem urges.

Did this skill help you cope with uncomfortable emotions or urges, or avoid conflict of any kind? Circle YES or NO.

Describe how the skill helped or did not help: ____________________________

Skill 2. Describe the situation and how you practiced the skill:

Planning for Dialectical Abstinence

Due Date: ________  Name: ____________________________  Week Starting: ________

Problem Behavior: ____________________________________________________________

Check each activity and describe what you did.

**PLAN FOR ABSTINENCE**

To maximize the chances I’ll stop ____________________________, I need to aim for abstinence.

- Plan activities to do instead of problem behaviors (e.g., work, find a hobby, go to a support meeting, volunteer). These will include:

- Spend time or touch base with people who will reinforce my not engaging in problem behaviors and my engaging in effective behaviors (e.g., effective friends or family members, co-workers, employers, my therapist, people from group). These people include:

- Remind myself of reasons to stay abstinent and be effective (e.g., to reach long-term goals, to keep/get relationship, to save money, to avoid shame). These include:

- Burn bridges with people who represent a temptation (e.g., lose their numbers, unfriend them, tell them to stop contacting me, make them not want to hang out with me). These people include:

- Avoid cues for problem behaviors. Cues include:

(continued on next page)
Use skills (things to do to avoid urges, interpersonal effectiveness, distress tolerance, emotion regulation, mindfulness). The most useful skills for me include:

Find alternative ways to rebel. These include:

Publicly announce I’ve embraced abstinence and effective behavior.

PLAN FOR HARM REDUCTION

If I have a slip, I don’t want the slip to turn into a slide. To avoid a slide, I must have plans to regain my balance and get back to abstinence and effectiveness.

Call my therapist, sponsor, or mentor for skills coaching. His or her number is: ________________

Get in contact with other effective people who can help (e.g., friends or family, people from group). These people include (with contact information):

Get rid of the temptations (e.g., drugs, comfort food); surround myself with cues for effective behaviors (e.g., workout clothes, fruit).

Review skills and handouts from DBT. The most helpful skills/handouts for me are:

Opposite action (Emotion Regulation Handout 10) can be rehearsed to fight guilt and shame. If no other option works, go to an anonymous meeting of any sort and publicly report your lapse.

Building mastery and coping ahead for emotional situations (Emotion Regulation Handout 19), and checking the facts (Emotion Regulation Handout 8), can be used to fight feelings of being out of control.

(continued on next page)
Interpersonal skills (Interpersonal Effectiveness Handouts 5–7), such as asking for help from family, friends, sponsors, ministers, or counselors, can also be helpful. If you are isolated, help can often be found via online support groups. These people or groups include:

- Conduct a chain analysis to analyze what prompted the lapse (General Handouts 7, 7a).
- Problem-solve right away to find a way to “get back on the wagon” and repair any damage you have done (Emotion Regulation Handout 12).
- Distract yourself, self-soothe, and improve the moment.
- Cheerlead myself (e.g., “One slip is not a disaster,” “Don’t give up,” “Don’t get willful,” “I can still climb back on the wagon.”) My cheerleading statements will include:

<table>
<thead>
<tr>
<th>Extreme thinking:</th>
<th>Middle ground:</th>
</tr>
</thead>
<tbody>
<tr>
<td>I have not quit yet; therefore I am doomed and might as well give up.</td>
<td>Relapsing once does not doom me to never stopping.</td>
</tr>
<tr>
<td>Now that I’ve relapsed, I might as well keep going.</td>
<td>I relapsed, but that does not mean I have to stay relapsed. I can be effective and get up now.</td>
</tr>
<tr>
<td>I missed an appointment, so I’m done with treatment.</td>
<td>I missed an appointment, but I can get in to see my therapist ASAP.</td>
</tr>
<tr>
<td>Other:</td>
<td>Other:</td>
</tr>
<tr>
<td>Other:</td>
<td>Other:</td>
</tr>
</tbody>
</table>

- Do pros and cons of stopping again now.
- Stay away from extreme thinking. Always look for the middle ground. Don’t let one slip turn into a disaster. (Check each extreme thought I am giving up and the middle ground I am accepting.)

- Recommit to 100% total abstinence.
